EXPERIENCE

Mobile Application Developer — November 2023 - Present
Mantra IT Solution Pvt. Ltd. — *Jwagal, Lalitpur, Nepal*

- Promoted from intern to Frontend Developer, responsible for mobile and web applications.
- Developed a mobile and web application for E-Grow's contract farming and e-Commerce system.
- Developed and maintained a mobile application for Mi Nepal's royalty and inventory tracking system.
- Maintained and improved existing projects, ensuring stability and functionality.

Intern — July 2023 - October 2023
Mantra IT Solution Pvt. Ltd. — *Jwagal, Lalitpur, Nepal*

- Interned as web and mobile application developer.
- Gained proficiency in React and React Native.
- Worked on a reservation module in the Airlines ERP system.

PROJECTS

E-Grow. Developed an e-commerce and contract farming platform using React Native, Redux Toolkit, and SQLite for the mobile app, along with Next.js, Auth.js, and i18next for the web. (Try it here)

Flight X. Developed a flight reservation module for Shree Airlines' ERP system and a mobile application for flight booking.

Sales X. Developed Sales X, an inventory tracking and royalty system with key features including a hierarchical QR scanning system for seamless product dispatch and management.

Checked. Built an offline-first notes and checklist mobile application. With Checked, you can effortlessly organize your tasks and notes and ensure nothing slips through the cracks. (Try it here)

Photos cloud. Built a cloud photo storage web app utilizing Next.js, PostgreSQL, Auth.js. (Try it here)

Sasto Bazaar. Built an e-commerce web application utilizing React and Tailwind CSS. (Try it here)

Wassup. Built a real-time chat application using Next.js, Node.js, Express.js, and Socket.io. (Try it here)

Subhakaarya. Built an event management web app using React, Redux Toolkit, and Tailwind CSS. (Try it here)
